

Volunteers Needed!

Cubberley Elementary and ART CORPS are planning another exciting year with this very successful PTA funded program, which provides a hands-on art experience for your children. ART CORPS instructors will be teaching the lessons this coming year in the new Art Room!

ART CORPS is a developmental art program, which teaches children the fundamentals of art. In the course of the year, 8 lessons are taught beginning with Line, Famous Artists are introduced, and a variety of mediums are used. Kindergartners will grow from drawing Line caterpillars into Fifth graders creating intricate Line designs.

Come have fun helping your children build their art skills.

Why do we teach art in school?

Art gives kids opportunity to take chances, imagine possibilities, and get a little messy! Kids can experience a sense of freedom they don't find in reading, writing, and arithmetic. Art can teach kids how to see patterns, how to learn from mistakes, and how to envision solutions. Kids who learn the lessons of art are the ones most likely to find the answers to our future's greatest challenges. So you see, art can change the world!

Please sign up to volunteer in your child's classroom. No art or teaching experience is necessary. And it's fun!

Visit our website at ArtCorpsSD.org for more about our program.

Parent Name: _____ Email: _____ @ _____

Teacher: _____ Room: _____

_____ Yes! I want to be an ART CORPS™ Volunteer!

_____ Sounds interesting, but I need more information.
